EXTREM SLICED BELLOTA CHORIZO

The Dehesa De Luna (Moon Meadow) is located in the outskirts of the small village of Herrerueta in the province of Cáceres (Extremadura). A little paradise in the heart of the Península Ibérica where Ibérico pigs roam free and tradition is interlaced with sustainability. This is an exquisite combination of environment and livestock, which is difficult to find elsewhere! Extrem takes an artisanal approach by overseeing the entire farming process, from the rearing of the sows to the production of their outstanding range of Bellota (Acorn fed) products.

Product notes: Specially selected cuts are blended with a range of Mediterranean spices and freshly ground paprika before being stuffed into a natural casing and cured in a cellar. This production process is based on artisanal practices, but is subject to strict quality controls, meaning that the product is guaranteed to be nothing less than exceptional. The meat presents a deep red colour and spicy, balanced flavour, with a soft aroma of paprika and a sweet lingering aftertaste.

Origin: Herrerueta, Cáceres (Extremadura)

Animal breed: 100% Ibérico Pig. FREE RANGE. Bellota grade

Animal Feeding: Acorn fed, grass and cereals. **Curing time:** 90 days

Unit average weight: 80g
